

8-10 March 2026 | Jerusalem
[Exhibition: 9-10 March, 2026]

Conference Prospectus

Dear Colleagues,

We are very excited to invite you to join us at **NANO.IL.2026** - The International Nanotechnology Conference & Exhibition, to be held in **Jerusalem** on **8-10 March, 2026**. *

The field of Nanoscience and Nanotechnology in Israel is characterized by multi-disciplinarity, strong synergistic connection between academia and industry and by an emphasis on a vigorous collaborative community. Over the past two decades Israel has evolved as one of the major players in the field of Nanotechnology, providing new and exciting knowledge and breakthrough solutions as well as significant opportunities in materials, electronics, photonics, quantum, energy, defense, aerospace, semi-conductor and newer fields of 3D printing, agro-food and bio-nano-med and other emerging and leading nanoscale fields.

NANO.IL.2026 will provide a fantastic opportunity to meet, discuss and learn about new developments at the cutting edge of the various sub-fields of Nanotechnology and initiate new collaborations. It is a central meeting point for local and international companies, investors, universities, and government representatives for bringing together elite speakers from academia, business, and government. We anticipate a large number of attendees from Israel and abroad with diversified expertise and interests, providing firsthand access to cutting-edge technologies and solutions. We will have scientific innovation presentations by top scientists and speakers, start-up companies and new technologies on the verge of reaching commercialization, multinational organizations, top defense related companies, hundreds of scientific posters and a rich display of the latest innovations and product prototypes, all seeking new ideas and fruitful collaborations.

NANO.IL.2026 is jointly organized by the Israel National Nanotechnology Initiative (INNI) and the Nanotechnology centers and institutes at Israeli universities. Please join us and meet top researchers and leaders from Israel and abroad to gain a joint look at cutting-edge innovations and technologies, leading scientific achievements and unique business and investment opportunities.

We look forward to welcoming you in Jerusalem.

Sincerely,

Prof. Danny Porath

Chairman Nano.IL Conference

Dr. Ido Hadar

Co-Chairman Nano.IL Conference

Mr. Haim Rousso

Co-Chairman Nano.IL Conference

Mr. Rafi Koriat

Co-Chairman Nano.IL Conference

* Please note: The exhibition will take place March 9-10th Professional Conference and Exhibition at ICC Jerusalem. 8 March is a day of workshops taking place at a different location.

NANO.IL.2026

This Conference provides a unique networking and collaboration opportunity, thus enabling you to promote your products and to gain brand recognition and credibility. It delivers cutting-edge research in an intimate yet dynamic setting, where attendees and exhibitors receive personalized customer service and great signage recognition.

Why Exhibit at NANO.IL.2026

You will enjoy great exposure and visibility at the event. The direct contact with the decision makers you aim to meet is the perfect B2B environment to market and promote your goods and/or services. A special bonus is the unique opportunity to reach out to the Israeli market.

Why Collaborate with Us?

NANO.IL.2026 partners with key players in academia and industry, global companies, research organizations and many more. This gives you a global advantage for efficient marketing and promotion of your organization by meeting collaborators from different countries and can bring your brand to the forefront of an event that is relevant to you.

Benefits of Collaboration:

- Networking and direct access to the right target audience
- Brand awareness and brand visibility
- Opportunities for new clients and business partners
- Instant feedback on new technologies, services, or products
- Gain industry insight and evaluate market trends to generate new business opportunities.

Taking part in NANO.IL.2026 will allow you to learn more about the future of nanotechnology and learn how to adjust your products to the growing market needs.
